Healthy Schools Policy

Introduction

At Orleans Primary School we want to promote the health and well-being of the whole school community through all aspects of food and drink, physical activity and positive emotional health. All the principles within this policy apply to both adults and pupils.

All members of the school community (teaching and non-teaching staff, parents, pupils and governors) work towards the school's aims, but the overall responsibility for the policy is with the PSHE Subject Leaders, the PE Subject Leader and the Headteacher.

Policy Objectives

To promote a school ethos and environment which encourages a healthy lifestyle

- Our explicit values underpinning positive emotional health and resilience are reflected in our School Aims and Values.
- Pupils have a voice and opportunities to give their opinions on how they make their school healthier. Pupils, parents and staff understand the importance of being sun aware and put into place specific strategies to keep the pupils safe.
- Staff take part in quality professional development including First Aid, Child protection and Safeguarding, PSHE, PE and understanding the mental health issues which can affect pupils.
- A positive learning environment is created through systems as set out in our Behaviour Policy
- There is an active partnership within the whole school community in working with outside experts such as the school nurse who works with individuals and the whole school to promote healthy lifestyles.

To use the full capacity and flexibility of the curriculum to achieve a healthy lifestyle

Food, drink and physical activity within a Healthy Lifestyle is incorporated across the curriculum. This includes:

- Food Technology (as part of Design and Technology) provides the opportunity to learn where food comes from and apply healthy eating messages through practical work with food including preparation and cooking.
- Science provides an opportunity to learn about the effects of physical activity and diet on our bodies and the effects of a balanced diet.
- PSHE encourages young people to take responsibility for their own health and well-being and teaches them how to develop a healthy lifestyle.
- Physical Education provides children with the opportunity to develop physically, mentally, socially and creatively and understand its practical impact.
- Mathematics enables children to understand nutritional information as well as calculating, weighing and measuring.

- Geography allows children to learn about physical activity opportunities in the local environment. It also encourages children to look at the changing environment
- The children in **Year 3** take part in the Safer Walking Scheme pedestrian training scheme

To ensure the food and drink available across the school day reinforces the healthy lifestyle message

- Each child is asked to bring a water bottle to enable children to freely access drinking water at all times in and out of the classroom.
- Water fountains are in both playgrounds to allow children to drink water at break times.
- Orleans Primary School has easily accessible toilets and regular toilet breaks.
- The school operates a no sweets/crisps/chocolate policy, for packed lunches, break times and discourages the sharing of sweets for children's birthdays.
- Children in KS1 and the Foundation Stage have fruit available during morning break time and all are encouraged to have some each day.
- A special healthy menu from our school lunch providers, ISS, has been put in place for lunchtime.
- Healthy choices are encouraged and supervised at school dinners.
- Lunch boxes are checked to ensure enough food has been eaten.
- **Children are shown how to make healthy meals through food technology lessons.**
- For special events such as class parties, festivals, fetes and fairs staff and parents will ensure that a variety of food choices are available, keeping in mind the Healthy School Policy.
- Orleans Primary School is a nut free school which is strictly enforced and communicated on a regular basis to pupils, parents and staff.
- Orleans Primary School follows the Healthy Schools Standard.

To provide quality physical education and school sport, and promote physical activity as part of a lifelong healthy learning.

- Active play equipment is provided for all ages at break times and lunchtimes including three climbing areas – this is introduced and modelled in assembly.
- Teaching Assistants have received training to help encourage interactive play.
- All children have two sessions of PE each week, with KS2 pupils using Marble Hill Park for their PE sessions.
- The children in year 3 have a term and a half of swimming lessons each year
- The children in Key stage 2 are given the opportunity to take part in local sporting competitions
- The school has a partnership with the School Sports Co-ordinator (SSCO) to develop sport across the school and make links with other local schools
- Children are offered the opportunity to take part in a range of after school sports clubs
