Headteacher: Jane Evans BA (Hons) PGCE, NPQH

4<sup>th</sup> March 2020

Dear Parents/Carers,

As reported cases of the Coronavirus increase, we want to reassure you that we are following all the latest government, Public Health England and NHS guidelines so that we are abreast of updates at all times. Our pupils, families and staff wellbeing is our highest priority and we all need to be sensible and avoid risks, whilst ensuring we do not compromise the education of our pupils. Please find a link to the latest guidance here <https://www.gov.uk/guidance/coronavirus-covid-19-information-for-the-public>

Please find below general information to support you.

## What is the Coronavirus?

Typical symptoms of Coronavirus include fever and a cough that may progress to severe pneumonia causing shortness of breath and breathing difficulties.

Generally, Coronavirus can cause more severe symptoms in people with weakened immune systems, older people, and those with long-term conditions like diabetes, cancer and chronic lung disease.

There are things you can do to help stop viruses like Coronavirus spreading. **We are following this guidance for the pupils within school.**

**Do**

→ cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze.

Richmond upon Thames  
Children and Young People's Trust

→ put used tissues in the bin immediately See Catch it, Bin it, Kill it

→ wash your hands with soap and water often – use hand sanitiser gel if soap and water are not available. This is particularly important after taking public transport.

→ pupils, staff and visitors should wash their hands:

- before leaving home

- on arrival at school

- after using the toilet

- after breaks and sporting activities

- before food preparation

- before eating any food, including snacks

- before leaving school

→ try to avoid close contact with people who are unwell

→ clean and disinfect frequently touched objects and surfaces

## **Don't**

X do not touch your eyes, nose or mouth if your hands are not clean

## **What to do if you or a member of your family suspect that you may have the Coronavirus**

If you are worried about your symptoms or those of your child, please call NHS 111.

Do not go directly to your GP or other healthcare environment.

Please also notify the school with all the relevant details so that we can take the appropriate action to ensure that all pupils and staff can stay safe and we minimise risks as much as possible.

Unless you are told otherwise, please continue as normal in sending your child to school.

## **Government Guidelines**

There is currently a list of countries/areas (detailed below) where the Government is advising people to self-isolate and work from home for 14 days even if they DO NOT have the symptoms. These are only if you have returned from these specific areas since 19 February 2020. If you have visited any of these areas you should call the NHS on 111 to inform them of recent travel.

These countries currently are:

- Wuhan City and Hubei Province in China
- Iran
- Daegu or Cheongdo, Republic of Korea
- Any Italian town under containment measures

You do not need to undertake any special measures if you have visited the following countries in the last 14 days, however if you develop the symptoms you should self-isolate and call the NHS on 111.

- Cambodia
- China\* (except for areas of the country specifically referred to above)
- Hong Kong
- Italy: north\* (except for areas of the country specifically referred to above)
- Japan
- Laos
- Macau
- Malaysia
- Myanmar
- Republic of Korea\* (except for areas of the country specifically referred to above)
- Singapore
- Taiwan
- Thailand
- Vietnam

The key message is we do not want to take risks but also need to be sensible so that the education of our pupils is not compromised.

### **Travellers returning from abroad**

The government is carrying out enhanced monitoring of direct flights from the affected areas. Passengers will be told how to report any symptoms they develop during the flight, at the time of arrival, or after leaving the airport.

As mentioned above, please rest assured that we will continue to follow the latest guidelines and unless you are advised otherwise, please continue as normal in sending your child/children to school.

Kind regards,

The Orleans Primary School Team and the Governing Body
